TECH NEWS

VOL. 3.—NO 9.

WORCESTER, MASS., WEDNESDAY, NOVEMBER 15, 1911

PRICE FIVE CENTS

WHAT CHANCES FOR THIS WEEK'S GAME!

Holy Cross has nothing on Tech.
Game promises to be the best yet.
The person who misses the Tech-Holy Cross game on Saturday may never have a chance to see a battle which by all indications promises to be the best contest of the season in Worcester.

Although we read that the betting is going 10 to 8 against Tech it is a different question to find the man who will take the chance in favor of Holy Cross. When the gamblers stop to think of the ability of Clough to boot the ball from almost any angle through the bars, and the invincible line that our team will put onto the field they squirm at the idea of leaning towards the purple and white. The game has been and is being talked of on every corner, and the favorite score proves to be 3 to 0 in favor of the engineers.

If scores give any clue look at these, as played by each team during the season:

Tech	Holy Cross
0 Tufts,	11
0 Trinity,	6
0 Rensselaer,	6
3 Rhode I. S.,	0
8 Amherst,	10
0 M. A. C.,	12
3 Sp'g. Training,	15
Colby,	0
Princeton,	28
Dartmouth,	6
Yale,	26
Harvard,	8
Boston College,	0

Total points scored by Tech, 14; by opponents, 60.

Total points scored by Holy Cross, 43; by opponents, 80.

This leaves:

Total points of opponents over Tech, 46
Total points of opponents over H. C., 37

It will be noticed from these data that the Holy Cross team has had some very irregular jumps in the scores, while those of Tech have been sane, as a result of evenly matched games where the points gained or lost do not signify much concerning the playing. In the case of the Colby and Boston College-Holy Cross games it was a walk away for the Worcester men, while in the Princeton and Yale-Holy Cross games it was too easy for their opponents.

The team that will be on the "grid-iron," on Saturday, is as follows:

	Pounds
Kloss, e.,	160
Clough, t.,	230
Roberts, g.,	225
Shopfer, c.,	210
Frissel, g.,	205
Howard, t.,	190
Lewis, e.,	160
Halligan, qb.,	155
Power, f.,	180
Baxter, h.,	170
Wulf, h.,	175

Also,	
Ruiter, h.,	160
Drake, g., or t.,	200
Kane, h.,	155
Brown, g., or t.,	200
Cole, c.,	195
Walker, qb.,	150

There is a husky bunch of substitutes ready and anxious to get into any game when called upon. They are all familiar with every change the team may make. The Tech line averages about 200 pounds. The Holy Cross line averages 190 pounds.

GREAT STUDENT MEETING

The visit of Charles D. Hurrey, national secretary of the Student Y. M. C. A., is one of exceptional honor to the Worcester student bodies. Not in years have we been privileged to become acquainted with the executive head of this—the greatest of student movements. The honor is of especial significance since Mr. Hurrey has but recently been appointed to this position, and the visit is among the first of those he will make to the colleges and universities of the United States and Canada.

For the last three years Mr. Hurrey has had great success as continental secretary in the most difficult of student fields, South America.

In 1908 he attended the World Student Conference in Tokyo, subsequently making extended travels through the student centres of Japan, China and the Philippines. He has visited the leading universities of England, Scotland, France, Switzerland, Italy, and resided for three months in the student centres of Spain and Portugal. In South America he was welcomed by presidents, educators and government representatives in his work. This last summer he was a delegate to the World's Missionary Conference in Edinburgh, after which he spent some time touring Germany, Holland and Belgium.

Few men are better qualified to speak on the subject "Students of the World" than he. Every man out this afternoon! Electrical engineering hall, 5 o'clock, and give him a rousing welcome. If you can't get there at just five come as soon as you can. Come just as you are from class, shop, foundry or field. Bring your slide rule!

Mr. Hurrey will be in Worcester three days, and the following programme has been outlined for him:

Wednesday, 5-6 p.m., speak at Tech "Popular;" 8-10 p.m., meet cabinets and executive heads of Worcester Academy, Clark and Tech, at home of President Sanford of Clark.

Thursday, 10.30-11.30 a.m., speak at chapel, Worcester Academy; 3-6 p.m., personal interviews, cabinet meeting, Worcester Tech; 7-8 p.m., address at Clark College; 8.30-10 p.m., guest at Tech faculty reception.

Friday, 9-11.30 a.m., conferences; 6-8 p.m., luncheon with canvassers for membership campaign, Association rooms, W. P. I.

AMHERST 10, TECH 8

Best Game of Season Played Last Week

Lucky fall for Amherst, wins game for them

The work of the team Saturday was by far the best it has yet shown. The strength of the line, hitherto unreliable, was in great evidence. From end to end the Tech forwards outplayed the Amherst line to such an extent that practically all Amherst's gains were made by the use of the forward pass, which they worked successfully several times. The ends in previous games slow in covering Clough's long punts were going strong Saturday at all times. The work of Ruiter, who replaced Power in the second half due to an injury, was a revelation. He played a great defensive game and on the offense went through the Amherst line for long consistent gains.

Clough kicked off for Tech. Power and Kloss broke up the first two attempts to gain, and Amherst was forced to punt. On the first play Power crashed through the line for ten yards. Halligan on a clever run gained twenty-five yards more. Power made plunges of three and five yards, and on the next play Clough kicked the ball between the uprights for the first score of the game.

Amherst kicked off to Baxter, who fumbled. An Amherst end recovered the ball on Tech's 5-yard line. Amherst was penalized fifteen yards for holding, but on a pretty forward pass to Madden the ball was put over for a touchdown. The attempt for a goal failed.

Clough kicked off. Baxter got the man in his tracks. Amherst could not gain through Clough and was forced to punt.

An exchange of punts gave Tech the ball on the 50-yard line. Clough made twenty yards on a forward pass from Halligan. Power made eight yards through centre on two attempts. Clough punted. Amherst returned the punt. On a fake play Halligan made fifteen yards, taking the ball to Amherst's 10-yard line. Halligan took the ball again for three yards more. Power crashed through centre seven yards for a touchdown. Clough missed the goal by inches.

Amherst kicked off. Power ran the kick back ten yards. Power banged at right guard for eight yards. On the next play Baxter made it first down. End of quarter. Ball on Tech's 27-yard line.

Second quarter

Power lunged through right guard for four yards. Clough punted for sixty yards. An exchange of punts gave Amherst the ball on the 50-yard line. Power spilled the next play. Amherst surprised Tech by pulling off a forward pass for forty-five yards. On three attempts Amherst could not penetrate the Tech line, but on the last down they put the ball over the line on another short forward pass. The goal was not kicked.

(Continued on page 5.)

ATHLETIC DIRECTORS' MEETING

At the last meeting of the directors of the Athletic Association there were present: President Halligan, Vice-president Clough, Secretary Keith, Treasurer Porter and the following directors: Senior, Gleason; junior, Armour; sophomore, Kane and freshmen, Bidwell.

This was the first meeting of the new crew of the year and all were present. Professor Coombs spoke to them concerning the necessity of the collection of all of the athletic dues. One Tech sport, basketball, had to be dropped because of the lack of support on the part of the student body and the slowness with which the dues were collected. Professor Coombs has kindly carried the deficit for the Association time and time again, so that it is getting to be an old story with him. We are thankful for the time and money that the professor has lent to the cause, but we must realize that we are imposing upon his kindness. There will be another meeting of the directors on Friday of this week, at which time a report from the collectors is due.

Other business of the meeting was the election of the managers for the baseball and track teams. Kane '14 will arrange the games for the baseball team, while Slocumb '13 was elected to manage the track team.

The Greatest Back In the Game To-day

There's a new back playing the game this fall—spectacular as the quarterback, popular as the halfback, essential as the fullback. It's known as the plaid-back and it's found in the big, long, warm Overcoats this up-to-date store is selling to the up-to-date young men who want the newest ideas and most correct styles. These Plaid-back Overcoats are in tremendous demand and prices have gone soaring everywhere but here. If you want a Plaid-back, come to Plaid-back Headquarters.

Tech News, Worcester Polytechnic Institute.

All checks should be made payable to the
Business Manager.

The Tech News welcomes communications
upon pertinent subjects at any time, but does not
hold itself responsible for the opinions therein
expressed.

All material should be in before Monday
noon at the latest in order to have it appear in
the week's issue.

Entered as second class matter, September 27,
1910, at the postoffice at Worcester, Mass., under
the Act of March 3d, 1879.

THE BLANCHARD PRESS, PRINTERS
6 Walnut St., Worcester, Mass.

Even to those who have been most
optimistic as to the powers of the team
the Amherst game was a pleasant surprise.
The College men were outplayed; Tech
kept them ever on the defensive. It was
the old story—"Tech luck," which is a
case of lack of that practice which pre-
vents fumbles and cures bad judgment.

The team has improved tremendously,
and the eleven which will trot onto Fitton
Field, Saturday, will have been prepared
for just that hour by the desperate final
week. "Here's hopin'!"

The News wishes to express the sincere
sympathy of the student body to
Connolly, of Amherst College, in his unfor-
tunate injury in last week's game.

Verily, we say to the football squad:
"Now is the accepted time; to-day is the
day of salvation." We want you to be the
men who are to deliver us from the Holy
Cross evil. Deliver us and yours shall
the glory forever."

To the Editor of Tech News:

Now that the Holy Cross game is in
sight I would like to make a suggestion
that each and every student be furnished
not only with the different yells, but also
with a complete set of our famous songs,
especially, "Fight, Fight for Worcester
Tech." Although the chorus of this song
is known to quite a number the main part
of the song, namely, the verses, is known
only to a few. I for one, although I am
forced to admit that I am a junior, belong
to the class that knows nothing about the
song itself, that is, the verses.

Now let us not show our ignorance when
this song, above all songs, is sung by being
content in watching the select few of the
few sing the first stanzas. What we want
is to have every student so thoroughly
acquainted with this song that the com-
bined voices of five hundred students will
produce such a volume as has never been
heard at Fitton Field before. Where
"there is union there is strength." This
applies to singing as well as to other
things.

Respectfully yours,
An Enthusiastic Junior.

NOTE

Tech students who will march to the
game should purchase their tickets from
the book and supply room before Friday
night. This will avoid confusion in
getting tickets at Fitton Field.

NOTICE

Civil Society Meeting

Mr. Robert L. Wardell of New York
will speak on the "Making of Surveying
Instruments," Nov. 17, 8 o'clock, electrical
engineering lecture room.

CALENDAR

MONDAY.

Glee Club rehearsal at 5 o'clock, in
Y. M. C. A. room.

THURSDAY.

Glee Club rehearsal at 5 o'clock, in
Y. M. C. A. room.

FRIDAY.

At 5 p.m. Big mass meeting in E.
E. lecture hall. All out to learn
new songs and cheers.

SATURDAY.

At 1 p.m. The Big Day. Everybody
out. Gather at Electric labora-
tory at 1 p.m., to march to Fitton
Field.

At 7 p.m. Nightshirt parade.
Here's where we celebrate our
victory over Holy Cross.

MASS MEETING DOPE FOR FRIDAY

Let's get away from the idea that there
is a hoodoo following us in athletics! Let's
break loose from that line of bunk about
not being able to trim the Purple bunch!
Also let's prove to ourselves and to anyone
else who happens to be around that we
are not 99.44 per cent. dead. There is
no getting around it—we've got to win
that game! Another thing that's sure is
that we have got to support the team, and
come out to the mass meeting Friday after-
noon. It's at five o'clock sharp, and there
is going to be something doing, as in former
years. The band is being resurrected and
is going to be there in force, and we are
going to have some "audible" singing.
Also there is going to be an improvement
in the cheering. Doctor Conant, Profes-
sors Coombs and Butterfield are to be
there, as well as Coach Donnelly and Cap-
tain Power. Remember the place—elec-
trical engineering lecture hall! Be there
and drag along that lazy, school-spiritless
classmate of yours!!

Y. M. C. A. MEMBERSHIP CAM- PAIGN, NOV. 20-22

At last! Four more days and the
looked for membership campaign will
be on. Every man on the Hill will be
personally invited to become a member
of the Tech Y. M. C. A. A house-to-house
cavass will be made next week, on Mon-
day, Tuesday and Wednesday evenings,
between the hours of 7 and 8. The men
scattered about the city or living out of
town will be canvassed on the Hill during
these same days.

Friday immediately after the Holy
Cross mass meeting a luncheon will be
served by the caterer for the fifty men who
are to take part in this cavass. A con-
ference will follow in which the details of
the campaign will be outlined. It is hoped
that Mr. Hurrey will remain over to ad-
dress this meeting.

The committee, of which F. Allen Sim-
mons '13 is chairman, is out to get two
hundred new members. You will want to
be one of the two hundred.

NOTICE FROM SUBSCRIPTION MANAGER

Will all the Alumni subscribers who
have not paid for the subscriptions do so
at once?

The sophomore and freshman football
men will meet the week after the Holy
Cross game in their annual game. This
game should be one of the events of the
year at Tech, and a victory made to mean
more than it now does. The freshmen
have already won two victories this year
but the sophomores are practicing hard
to land this game. In former years the
winning class has done nothing more than
give a few cheers, but why not celebrate
in some way that would be more effective?
It is a long time till the Tech show and a
theatre party would be a very acceptable
break in the grind. This would also give
both classes a chance to get better ac-
quainted as well as a pleasant evening
together. A large number of the men go
out on Saturday evening, in any case, and
there is no reason why every man in the
two classes should not be able to show up
that night. Seats at one of the local the-
atres can be secured and the entire front

Special Styles for Young Men

Good fabric is not made by
fabrification, yet lye is a test of
cloth. All our woollens have been
put through the initiation cere-
monies before being admitted to
our clothing club. The weak
ones get black-balled, so the
quality of our suits is assured.
Here are suits at \$15 to \$25 that
meet every requirement you can
expect and then they'll go you
some better.

Overcoats \$12 to \$40.

Emerson Shoes \$3 to \$5.

Cor. Main and Mechanic Streets
Worcester's Greatest Clothiers.

of the house filled with Tech men. Let
the classes get together and make the
night of their game one of the "big
nights" of the year! This is the last
chance the classes will have of meeting on
the athletic field, and no better way of
shaking hands and calling it square could
be devised. We have few enough customs
here, so this chance of adding one that
might mean a good deal should not be lost.

Reading Notices.

Reading notices, for sale, to rent, advertising and other reading notices are printed at the rate of 10 cents for six words, payable strictly in advance. Minimum charge, 25 cents. Notices may be addressed to the Advertising Manager, or dropped in the Tech News box in Boynton Hall.

When the cold weather comes you should look to your hair comfort. A trip to Fanny's, 51 Main St., will put you in the pink of condition for cold weather and improve your looks. A trial convinces.

(Continued from page 1.)

Clough kicked off. Amherst's ball on their 25-yard line. Amherst made eight yards through their right tackle. This was followed by five yards more in the same place. Roberts threw the next man for a five-yard loss. Amherst punted as the whistle blew, ending the quarter.

Third quarter

Power bruised his knee and Ruiter was sent in at full. Clough kicked off. Ruiter nailed the Amherst man in his tracks. Amherst failed to gain, through Shopfer, and was forced to punt. Tech fumbled and lost the ball on the 50-yard line. Frissell broke up the first play and repeated the performance on the play following. Amherst tried an onside kick, but the ball was recovered by Halligan on the 20-yard line. Clough immediately punted for fifty-two yards. Amherst went through centre for eight yards, but on the next play Roberts intercepted a forward pass. Clough punted. The ball hit the ground and rolled along for a total of seventy-five yards. Amherst punted back. Tech gained thirty yards on this exchange of punts. Clough punted again to Amherst's 8-yard line. Kloss dropped the man hard in his tracks before he could take a step. Amherst punted. On the next play Kane made twelve yards on a forward pass from Clough. Another forward pass from Halligan to Clough gave fifteen yards more. With the ball on the 20-yard line Clough attempted another goal from the field, but the ball narrowly missed the uprights. The third quarter ended shortly after.

Fourth quarter

Tech had the ball on Amherst's 50-yard line. An exchange of punts followed. Tech lost the ball on an attempted forward pass. Amherst could not gain and was forced to punt. Clough punted back, and Howard got the man in his tracks. Amherst could not gain on a forward pass and lost the ball in the next play on an attempted onside kick, which Halligan recovered. Halligan went through the line for five yards. Clough's punt was blocked, and Amherst had the ball on Tech's 25-yard line. Amherst could not gain, so Madden attempted a drop kick which went wide of the goals. The ball went to Tech on their 25-yard line. On two plunges through the line Ruiter made first down. Kloss was slightly injured and was replaced by Lewis. Halligan squirmed through the line for eight yards. Ruiter followed this up by going through left tackle for twelve yards. Again the ball was given to Ruiter and he hit the same place for seven yards more. The game ended at the end of this play.

Lineup:

Amherst 10,	Tech S
Hubbard, le.,	re., Kloss
Bauman, lt.,	rt., Clough
Sibley, lg.,	rg., Roberts

A BUNCH OF ALUMNI NOTES

R. D. Whitmore '09 has accepted as instructor in manual arts in the Imperial University, Pekin.

R. D. Gold '10 is at the Chinese Government Scientific School, Tooechow, where he is in charge of work in mathematics, physics, machine shop practice and some of the electrical engineering subjects.

Y. A. Foster '82 is assistant professor of mechanical engineering and drawing at the Tangshan Engineering College, in northern China.

W. Chester Redding '05, E. E., has resigned as foreman of the cable department of the American Steel and Wire Co. to become engineer with the Western Electric Co. He will be in the New York office of the company.

Anson M. Holcomb '05, E. E., for several years instructor in Sibley College, Cornell University, is now assistant professor of electrical engineering in the Case School of Applied Science.

Arden B. Holcomb '08, E. E., formerly an instructor in Sibley College, Cornell University, is now teaching in the Carnegie Technical Schools, Pittsburgh.

Allan W. Forbes '10, E. E., is now with the Crocker-Wheeler Co.

J. E. Gallagher '83 is mentioned as a candidate for the State Highway Commission.

Charles Baker '93 was elected a member of the Institute Board of Trustees at the October meeting of the Board.

Philip F. Ellsworth '08 until recently employed on the railroad valuation work by the New York Central system has taken a position as assistant city engineer at Westfield, Mass.

Arden B. Holcomb '08, electrical engineering, formerly an instructor in Sibley College, Cornell University, is now teaching in the Carnegie Technical Schools, Pittsburgh.

Allan W. Forbes '10, electrical engineering, is now with the Crocker-Wheeler Company.

The membership in the W. P. I. branch of the American Institute of Electrical Engineers is larger this year than ever before. Among the students of electrical engineering 94 per cent. have shown their interest in the society by joining the local branch.

J. E. Gallagher '83 is mentioned as a candidate for the State Highway Commission. Mr. Gallagher has had wide experience as a civil engineer. At present he is located in Ensley, Ala.

Charles Baker '03 was elected a member of the Institute Board of Trustees, at the October meeting of the Board. Mr. Baker, who is with the Baker Lumber Co., of Worcester, is president of the General Alumni Association of the Institute.

W. Chester Redding '05, electrical engineering, has resigned as foreman of the Cable Department of the American Steel & Wire Co., to become engineer with the Western Electric Co. He will be with the New York office of the company.

Anson M. Holcomb '05, electrical engineering, for several years instructor in Sibley College, Cornell University, is now assistant professor of electrical engineering in the Case School of Applied Science.

SOCIAL MEETING OF A. I. E. E.

Last Friday evening about two hundred students and lady friends gathered in the lecture room of the electrical laboratory to hear Prof. A. S. Richey tell about the "Big Job Ahead of the Nickel." He started off with a few stories from his extensive collection, and then turned to his mysterious subject. It was soon discovered that the "job ahead of the nickel" was to supply the necessary funds to keep the new subway operating, that is being

built in New York city. And from figures that were given it looks as though the nickel did have a big job ahead of it. After the lecture was finished all adjourned to the main laboratory, where refreshments were served. On the gallery the Tech orchestra played, while the students and friends enjoyed the rest of the evening until 11.30 in a social dance. These little social times help keep up school spirit, and we certainly all enjoy them.

The junior civil engineers made a trip of inspection to the new Union Station and grade crossing work last month. Special attention was paid to the track work, signaling, round house and the new concrete work. A trip to Boston was made on Saturday, Nov. 11. The South Station was inspected in the morning and in the afternoon the Buff & Buff Surveying Instrument Works were visited. The trip was under the direction of Prof. H. C. Ives, of the department of civil engineering.

The following officers were elected by the Athletic Association at its annual meeting: President, M. G. Halligan '12, of Shelburne Falls, Mass.; vice-president, C. C. Clough '13, of Vineyard Haven, Mass.; secretary, R. L. Keith '14, of Worcester, Mass.; treasurer, O. S. Porter '13, of Worcester, Mass.; senior director, E. W. Gleason, of Worcester, Mass.; junior director, J. W. Armour, of Worcester, Mass.; sophomore director, H. L. Kane, of Cambridge, Mass.; freshman director, H. W. Bidwell, of Hartford, Conn.; cheer leader, H. T. Taylor '12, of Amesbury, Mass. All of the officers elected have been prominent in athletics.

Two recent graduates of the Institute have accepted teaching positions in China and have begun their work there. R. D. Whitmore '09 is instructor in manual arts in the Imperial University, Peking, and R. G. Gold '10 is at the Government Scientific College, Tsochow, where he will have charge of work in mathematics, physics, machine shop practice and some of the electrical engineering subjects. An earlier graduate of the Institute who has now been for some years in China is Y. A. Foster '82, who is assistant professor of mechanical engineering and drawing at the Tangshan Engineering College, in Northern China.

Parkman T. Denny '72, who died on Oct. 28, was a prominent citizen of Leicester, Mass., where he was treasurer of the Savings Bank, besides holding many other positions of trust. The obituary record of the year now numbers ten graduates.

Prof. A. W. Duff, of the department of physics, was the official representative of the Institute at the inauguration of President Elmer Ellsworth Brown, at New York University, last week.

H. P. Conklin '11 has accepted a position with the Factory Insurance Association of Hartford, Conn. At present he is stationed in Philadelphia.

Dr. T. C. Mendenhall, president of the Institute from 1894 to 1901, who has been living in Europe since the fall of 1901, will return to this country in the near future. Doctor Mendenhall was for some years professor of physics in the Imperial University of Japan, and has spent several months in Japan on his way home. He has been secured as one of the speakers at the conference on criminal affairs to be held at Clark University next month.

Mr. Lester McGraw '05, who has been in the employ of the Westinghouse Electric and Manufacturing Company, has just accepted a position as chief engineer of the Georgia Power Company, with headquarters at Macon, Ga.

Dr. George H. Haynes attended the autumn meeting of the American Antiquarian Society, in the new building of the society, Wednesday, Oct. 18.

Mr. Harry W. Morehouse '03, who has been with the Pullman Motor Car Co. of York, Pa., is now engineer of equipment of the Western Union Telegraph Company at New York City.

Popular Mechanics, for October, has an article on the aerial propeller testing station designed by Assistant Professor David L. Gallup and installed at the hydraulic testing plant at Chaffins.

Mr. Francis W. Roys was united in marriage with Miss Marion Bowker, of this city, on Columbus Day. After a short trip they returned to the city and Mr. Roys resumed his duties at the Institute.

Roland A. Packard '08 was married on Sept. 5 to Madeline Noble of Springfield, Mass.
